CYA Recipe Book Revision 2011

A reminder from Chris.....we need your recipes for the recipe book update urgently!!!

The idea is a recipe that could be cooked in a boat with the limited space/refrigeration/cooking facilities available.

Here is what we did last year...

<http://www.classicyacht.org.nz/recipes-flip/recipes-flip.html>

There are a few errors which will be corrected and I know there are a few who want to add to it, so for those who want to be part of this, please send me your recipe today.

All I'm after is the text (don't worry about piccies) .. and need to know which boat it came from (so you get your name in lights) and if you do have a pic of it that is reasonably good quality, please send it.

The deadline is 20th May so please get those recipes rolling in to:

Chris Miller: chrism@pix.co.nz

or post to: 45 Roslyn Tce, Devonport

2011 -12 Register

For those who haven't yet sent me a listing entry for this years register, please send today. There are still quite a few boats we don't have.

Remember the details: Your name (& partners name optional), Cell ph number, vessel name, when it was designed and by who.

Picture should clearly show the vessel so it can be identified, preferably sailing but a marina pic is acceptable. The file should be at least 500k.

Please send me ALL the info some of you haven't included your names!

Register of Wooden Boats

The publishers of 'Wooden Boat' magazine & the on-line web based 'Wooden Boat Forum' have produced since 1993 a 'Register of Wooden Boats', with approx 6,000+ current listings. Originally limited to North America it is now open to the world. Check it out at: <http://www.woodenboat.com/rwb/>

Quote (part) below from the Registers home page:

"Purpose:

The Register of Wooden Boats lists information on wooden boats 20' and above in overall length.

Keeping track of boats and yachts is a tradition dating back to the late 1800's, first with Manning's Register, then with Lloyd's. Researchers, museums, and boat owners have found the information contained in these registers of great value in tracking historically significant watercraft, pinning down their particulars, and in general learning more about the boat or boats that are of particular interest to them.

Our mission is solely to keep track of all the wooden boats we possibly can."

We have been approached by WBF to extend the offer to list New Zealand vessels in the Register - already there are numerous Kiwi boats listed.

If you have any questions concerning the Register, feel free to contact the Wooden Boat people direct (email rwb@woodenboat.com)

It only takes a few minutes to register & will help beat the drum for the growing awareness of the classic fleet down under.
