Practical Guidelines for the Restoration, Preservation & Use of Classic Boats

The Classic Yacht Association of New Zealand has just released a document explaining their views on classic boat restoration, preservation and use.

One might ask, why the need for this set of guidelines?

Interest in classic boating is growing rapidly on a worldwide basis. Why? People now understand that these one-off works of art are rapidly disappearing and, in most cases, will never be replaced. Some of these vessels have played an important part in our history and they are one of the few tangible ways future generations can relate with and experience the past. It is now up to this generation to preserve what remains and to set an example on their preservation and safe usage to ensure they survive intact into the future.
