Top Up Courses @ the NZTBS

If you're feeling a little rusty about the what to do's with any trouble spots on your classic vessel, then you may want to come along to a One Day Course at the NZ Traditional Boatbuilding School. If you've been out on the water all summer and had a 'must get around to that' moment, now that we're heading into winter and the southerlies have begun, this may be the ideal time when you're no longer tempted to head out to the greater gulf and stay put and do some maintenance instead.

The **One Day Repairs to Wooden Boats Course** is ideal for this. The next one is scheduled for **18th May**.

Caulking & Carvel Planking One Day Course will be next held on **11th May**.

All enquiries and registrations to Tanya.

Show you Float

Compulsory wearing of personal floatation devices is currently under discussion in our region.

Waikato Regional Council already enforces having a correctly sized PFD for each person on board. In vessels less than 6m, everyone must wear a lifejacket unless the skipper considers that it is safe not to.

Waikato Regional Council also state that PFD's must be worn if there are high risks to people's safety.

The Safety of the Captain and Crew of Vessels is imperative. The CYA recommends that lifejackets are worn whilst cruising and racing especially when the weather is not ideal and/or there is a lot of other boat traffic about.
