CYANZ Annual Launch Cruise

Sunday 18 November:

Departing from X pier, Westhaven at 1100hrs
Arriving Salthouse Boatbuilders: 1200-1300hrs

Come along and enjoy a scenic trip up the Upper Waitemata Harbour and the river towards Riverhead and then back to Salthouse Boatbuilders at Greenhithe for lunch and to view several classics that are undergoing restoration – includes Victory and Windhaven.

The annual launch trip is a bit different this year as the wharf at Riverhead was washed away in a recent flood and we believe it would be too difficult to get everyone ashore.

This trip is suitable for all launches and some small yachts (with adventurous skippers) and great fun. It is also a great chance for yachties to go for a ride on our classic launches.

Alternatively, drive up to Salthouse's and join us for lunch and great camaraderie

The annual pilgrimage will depart from X Pier at Westhaven at 11 am and we will aim to arrive at Salthouse's between noon and 1 pm. High tide is just after 2 pm.

Lunch is BYO and barbecues will be available to cook on.

Launch skippers: please advise Joyce if you are joining the flotilla, and if you can take yachties or others wanting to 'hitch a ride'

Need a ride: Anyone wanting a ride please let Joyce know

More details and a map will be provided closer to the event.

Practical Guidelines for the Restoration, Preservation & Use of Classic Boats

The Classic Yacht Association of New Zealand has just released a document explaining their views on classic boat restoration, preservation and use.

One might ask, why the need for this set of guidelines? Interest in classic boating is growing rapidly on a worldwide basis. Why? People now understand that these one-off works of art are rapidly disappearing and, in most cases, will never be replaced. Some of these vessels have played an important part in our history and they are one of the few tangible ways future generations can relate with and experience the past. It is now up to this generation to preserve what remains and to set an example on their preservation and safe usage to ensure they survive intact into the future.
